

JOHANNA ENGER

*Architect/Lighting Designer
Researcher, Senior Lecturer
Konstfack, Sweden*

Johanna Enger is Host of Moving Boundaries Nordic X at Konstfack. She holds a position as assistant professor and researcher in lighting design at Konstfack - University of Arts, Crafts and Design in Stockholm. At Konstfack she heads a workshop called the Perception Studio which offers courses and tutoring to design and craft students at all levels.

With a background in industrial design and a MSc degree in Lighting Design she has dedicated over 15 years striving to bridge design practice and research in the combined knowledge area of light, colour, visual perception and spatial experience.

Her experience spans from lighting design and light art practice, presidency of the jury of the Swedish Lighting Award to PhD studies in Environmental Psychology to the current position as teacher as well as research leader for the interdisciplinary research project Perceptual Metrics for lighting design.
